**Qualitative Information Concerning Consolidated Business Results**

**China**

In China, the Group not only has expanded its geographical sales areas but also made significant strides in strengthening its **CUP NOODLES** brand and promoting premium bag-type noodles. In Mainland China, amid a slow economic recovery, sales of cup-type noodles, mainly **CUP NOODLES BIG**, increased due to the expansion of sales channels into inland areas. In Hong Kong, sales of non-instant noodles products such as frozen foods decreased due to the change in consumption behaviour of Hong Kong citizens. However, sales of bag-type noodles including **Demae Iccho** remained steady. In addition, ABC Pastry, the newly acquired frozen dumpling company in Australia, has been consolidated as a subsidiary of the Group since December 2024. Against the backdrop, revenue increased due to increased sales of instant noodles, compared to the same period of the previous year. In terms of profit, profit on a recurring business basis increased due to the impact of the currency translation although the non-instant noodle business struggled to grow as a result of our focus on the mainstream instant noodle business. On an operating profit basis, profits decreased mainly due to the recognition of impairment losses on fixed assets in Mainland China.

Consequently, revenue was JPY53,529 million (+9.6%), core operating profit was JPY5,361 million (+0.2%) and operating profit was JPY2,839 million (-47.2%) in this reportable segment. Excluding the impact of currency translation, revenue was JPY50,380 million (+3.1%), and core operating profit was JPY5,055 million (-5.6%).
